Supported by Initiative Musik GmbH with project funds from the Federal Government Commissioner for Culture and the Media; and funded by Musicboard Berlin GmbH.

NIGHTLIFE CONFERENCE
24. – 26.11.2016, BERLIN

N I G H T S

STADT
NACH
ACHT

www.nights-2016.org

NIGHTS 2016 Berlin – STADT NACH ACHT – conference will take place at one of the most attractive nightlife cities in the world. Berlin is not only «poor and sexy», the city is growing fast and dynamic. Berlin has become a magnet for partygoers, musicians, sub culture activists and creative heads from all over the world: a sign that a vibrant nightlife is an important urbanism and city image factor.

But a vibrant nightlife needs its space inside the city. The success of the nightlife culture comes with its own set of challenges, for example the coexistence of nightlife cultures and neighbours or the risky behaviour of party goers related to their consumption of alcohol, drugs and sexual activities. There have been many interesting responses to this new set of circumstances, problems and needs related to nightlife activities. Prevention and harm reduction interventions also directly target partygoers and we've seen the development of structural and regulative measures. For several years, due to ongoing gentrification in European cities, multi stakeholder night-time community and urban planning approaches have become more important.

The culture, music and nightlife-regulations are maybe different but the challenges are similar for all cities of the world, which is reason enough to promote an attractive and sustainable nightlife culture on an international level. The Clubcommission Berlin and the European NEWNet are looking forward to welcoming you to an unforgettable conference. It's your opportunity to set-up new networks and projects and to participate in the mystic Berlin night – let's go to Berlin!

MORE INFORMATION:

www.nights-2016.org

For the first time the NIGHTS 2016 Berlin – STADT NACH ACHT – conference brings the night disciplines urban planning, party culture, party politics, night time economy and health under one umbrella together. International speakers will present their own expertise, newest study results and good practice experiences.
